

We're setting a new standard for quality, safety, potency, and value. Instead of chasing the latest fad "ingredient-of-the-month;" we concentrate on developing innovative formulas to deliver proven-effective sports nutrition products for active people of all ages who want to get fit, and stay fit. Our products meet all FDA requirements and are produced under a standardized set of good manufacturing practices (cGMP) and quality-control standards to ensure unsurpassed purity, strength and potency. From initial research to new product development, Palm Beach Performance is committed to bringing you dietary supplements, nutraceuticals, and nutritional supplement blends that will enhance your active lifestyle and help you to reach your goals.

Estrogen Flush is an Essential Addition to Anyone's Hormone Therapy Program!

MEN: The biggest concern for men is excess estrogen. A complete anti-estrogen program should include three components, (1) a product to block testosterone conversion to estrogen (aromatase), (2) a product to block estrogen at the receptor site (SERMs), and (3) a product that will help flush existing estrogen from the body. PBPS Estrogen Flush does exactly that!

WOMEN: Women are most concerned about balancing estrogen & progesterone, and preventing cancer-causing estrogen metabolites. PBPS Estrogen Flush aids women by both avoiding estrogen dominance and by making their current hormone program more effective. PBPS Estrogen Flush further protects women by directing the body to convert estrogen into *cancer-preventing* metabolites.

Supplement Facts

† Daily value not established.
Other Ingredients: Gelatin Capsule, Rice Flour, Magnesium Stearate.

Liver Toxicity is an Issue for Everyone!

Liver toxicity is an issue for everyone; not only those who are using liver-stressing hormone products. PBPS Liver Cleanse is designed to detoxify the liver and keep liver enzymes within normal range. PBPS Liver Cleanse works as both a preventative measure, and a treatment option. This means that it not only helps your liver deal with elevated enzyme levels, but also works to detoxify the liver; keeping enzymes within normal range.

For those using oral anabolics including oxandrolone, fluoxymesterone, oxymethelone, and oral or injectable stanozolol, PBPS Liver Cleanse is essential! It is well known that these products will increase liver enzymes; PBPS Liver Cleanse can help to protect the liver and ensure normal subsequent test results.

† Daily value not established.
Other Ingredients: Gelatin Capsule, Rice Flour, Magnesium Stearate.

Optimal Thyroid Function Essential to Disease Prevention!

Developed under the guidance of Dr. Darrin Frye, a nationally-recognized expert in the field of thyroid function, Thyroid Support Formula is a cutting-edge dietary supplement that employs the most beneficial ingredients available to provide maximum results.

Ensuring optimal thyroid function is essential to the prevention of disease and metabolic syndrome. Maintaining and improving body composition will require optimal thyroid function as well. Many patients seek to (a) optimize thyroid while on a cycle, (b) maximize their benefit while on thyroid medication, or (c) ensure that they don't "crash" after coming off thyroid medication. This product is able to support all three endeavors. "Thyroid Support" may be used with or without a thyroid supplement and after the cessation of a thyroid program.
